Barbour, "I am proud to think that my son, Warren, is today the champion amateur heavyweight boxer of America. He has boxed for the first and last time in public, and I believe his victory will encourage young men of independence to follow his example and take a keener interest in boxing, thus tending to elevate a sport or pastime, which should be encouraged and regarded as a science."

PHOTOGRAPHERS BARRED.

From National League Base Ball Diamonds.

Boston, April 15.—President Thomas E. Lynch, the new head of the National league, who was in this city, said yesterday that all the umpires in his league had been instructed to permit no photographers upon National league diamonds in yesterday's games, after the play has been called.

"The rule regarding only the presence of players upon the field and the coaching lines is perfectly plain," said President Lynch. "The impression has gone forth that any two clubs, playing in a series, could waive that rule and permit photographers upon the field. It is a ground rule that could be done. But it is not, and the only way for the rule to be waived is by action by a majority of the clubs in the league. No two clubs have the right to waive the rule."

President Lynch, it is understood, has been supported by a majority of the club owners in insisting upon the strict enforcement of the rule applying to the case. "If a majority of the league presidents get together at any time," commented President Lynch, "and decide to waive that rule, then of course the photographers could return to the coaching lines."

PHILBIN RESIGNS.

Captain of Yale Nine Cannot Play Because of Injury.

New Haven, Conn., April 15.—Captain Stephen H. Philbin has tendered his resignation as captain of the Yale baseball team.

In his letter of resignation, Captain Philbin stated that he has taken this action because of his inability to play during the next month, owing to an injury to his ankle, suffered during the spring trip of the team. The letter adds that it is for the interest of the team that he retire, so someone can actively lead the players during the most important period in the development of the team.

Jeffries Worried.

Ben Lomond, Cal., April 15.—James J. Jeffries is much worried over the condition of his wife, who will soon undergo an operation, and he says that until she recovers, and he is relieved of apprehension regarding her illness, he will indulge in only very light training work. The decision of the fighter has been received with satisfaction by his camp companions, who have indicated anxiety that Jeffries was plunging too heavily into the conditioning process for his fight with Johnson. Jeffries' movements of the last three or four days are taken as a tacit admission that he put too much hard work into the first half dozen days of his training. Though always a hard worker, and seemingly never determined to win his fight with Johnson than any other of his career, Jeffries started off at a clip that led his trainers to fear that he might go stale long before July 4.

AERONAUT HAS BAD FALL.

Lorenz Dangerously Hurt in Sight of 300 Prussian Parliament Members.

Berlin, April 15.—Aeronaut Lorenz became entangled in the guy rope of the military balloon M 4, as it was leaving the ground yesterday, and was carried high above the field, where he clung for a moment and then fell. He was frightfully and probably fatally injured.

TAFT GOING TO MICHIGAN.

The President Will Attend Unveiling of Custer Statue on June 4.

Washington, April 15.—President Taft has promised Representative Townsend to go to Monroe, Mich., on June 4, and attend the unveiling of a memorial statue to General Custer. Monroe was Custer's home when he enlisted and the old homestead there is now owned by the government. The site will be used for a post office building. On the same day, the president will go to Jackson to attend a celebration of the birth of the Republican party under "The Oaks" on July 6, 1854. A memorial will be dedicated. Some time ago the president promised to be in Ada, Ohio, on June 3, and he will continue his Michigan trip from there, returning to Washington from Jackson.

ASQUITH HAD 103 MAJORITY

For House of Lords Veto Resolution

COMMONS IN AN UPROAR

Balfour, the Leader of the Opposition, Says That the Premier Has Bought the Irish Vote at a Monstrous Price.

London, April 15.—Amid scenes of intense excitement, hardly paralleled since the Gladstone home rule debates, the House of Commons last night, by a majority of 103, recorded its approval of Premier Asquith's resolutions dealing with the veto power of the House of Lords and heard the premier's declaration of policy for carrying them into statutory effect.

Having formally introduced, amid cheers, his supporter bill embodying these resolutions, Mr. Asquith said that they were confronted by an exceptional, and perhaps a unique, case. The government's effective existence depended upon the passing of the resolutions into law. If the House of Lords failed to accept or declined to consider their policy, the government would feel it their duty to advise the crown as to what steps were necessary to ensure their policy receiving statutory effect. It would not be right, he continued, for him to disclose the terms of that advice, but unless the government found themselves in a position to give their policy statutory effect they would either resign office or recommend dissolution of Parliament.

Mr. Balfour, leader of the opposition, rose amid a considerable uproar and said that the premier's statement represented the culmination of long negotiations with the Irish party. The Nationalists had agreed to swallow the budget, their aversion to which they had never concealed, in order to get home rule.

The negotiations seemed to him to have left both parties rather poorer than they were, and the government, he declared, was paying a monstrous price for the budget. The premier had bought the Irish vote at the price of the dignity of his office and its great traditions, and the speaker having adjourned the House, an uproarous scene ensued. There were hisses and cries of "traitors," "traitors," and similar names.

While Mr. Redmond, the Irish leader, appeared to be trying to reach a conciliatory mood, when he used an offensive expression, nothing serious occurred, but the demonstrations were renewed in the lobbies.

RECEPTION TO ROOSEVELT.

Committee Plans to Have Affair a National Event.

New York, April 15.—A reception to Theodore Roosevelt by a committee, representing every section of the country, which will go down the bay to meet him, and a parade of some sort through the city, is the tentative plan for the ex-president's welcome home on June 18, as outlined at a meeting of the executive committee of the Roosevelt reception committee Wednesday.

Indications are that participation, even by the far west, will be general. Arthur F. Crosby, secretary of the committee, said many requests have been received from delegations and individuals all over the country for a place on the reception program. It is the intention of the committee to allow all who wish, irrespective of locality, to join in the ceremonies as its desire is that the reception shall be as national as possible in character.

DENIAL AT VATICAN.

American Candidates for Cardinals Not Eliminated.

Rome, April 15.—The report that the pope had eliminated the names of American candidates from the list of candidates for the cardinalate has, upon investigation, been found to be erroneous. It was authoritatively denied yesterday, and the idea that such a step had been taken because Theodore Roosevelt did not visit the pope was characterized as ridiculous.

The Cause of Colds

Good Advice Regarding the Prevention of Coughs and Colds.

If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs, which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

An excellent aid in the prevention of coughs, colds, pneumonia, and such like infectious diseases, is a remedy that will prevent or cure catarrh.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician who has an enviable reputation of thirty years of cures gained through the use of this formula. We promise to make no charge for the medicine, should it fail to do as we claim. We urge everybody who has need of such a medicine to try Rexall Muc-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove the reasonableness of our claim in every particular, and we see no reason why anybody should hesitate to accept our offer and try it. We have two sizes of Rexall Muc-Tone, prices 50c and \$1.00. Sometimes a 50c bottle is sufficient to give marked relief. As a general thing, the most chronic case is relieved with an average of three large bottles. You can obtain Rexall remedies in Barre only at our store, The Rexall Store, The Red Cross Pharmacy, Burt H. Wells, proprietor.

Road Said to Have Lost Hundreds of Thousands on Repair Work.

Chicago, Ill., April 15.—Detectives in the employ of the Illinois Central railroad for the last two months are said to have disclosed a conspiracy by which the company has lost several hundred thousand dollars in repair work. It is claimed that an investigation has been in progress for some time by a detective agency, headed by W. J. Burns, the man who investigated the San Francisco fraud case. In what manner the fraud was committed is not known, but it is believed to have been by means of fraudulent bills, which were permitted to go through the auditing department, either purposely or through carelessness.

\$8,760,000,000 VALUE OF U. S. FARM PRODUCTS

Figures Prepared by the Department of Agriculture Shows \$6,300,000,000 Increase in Twenty Years.

Washington, April 15.—Phenomenal has been the increase in the past twenty years in the value of the wealth produced on farms of the United States. Figures carefully prepared by the statisticians of the department of agriculture show this increase to have been \$8,760,000,000 in the period from 1889 to the close of last year.

In 1889 the value of the wealth produced on farms of the United States was \$2,400,000,000; ten years later it was \$4,717,000,000, and last year, according to the preliminary estimate just issued it was \$8,760,000,000.

RIOTING RENEWED.

Striking Street Car Employees Make More Trouble.

Philadelphia, April 15.—Crowds of striking employees of the Philadelphia Rapid Transit company attacked cars in various parts of the northeastern section yesterday and the police had considerable trouble in quelling the disturbance. Clubs were freely used and in some instances the policemen were compelled to threaten the crowds with revolvers. Accompanied by President McCrea of the Pennsylvania railroad and railroad and city officials, Mayor Rehrman yesterday went to the northeastern section on a special train, on the Kensington branch of the railroad, to inspect im-

provements, which will do away with grade crossings.

At numerous points in Kensington, where the train stopped, the mayor was recognized and jeered. The inspection trip was cut short, but whether because of the attitude of

the crowds encountered or for other reasons, is not known.

According to the leaders of the striking carmen yesterday, there will be no attempt made by the strikers to take part in the baseball parade on Broad street.
